

# THE HEAT IS ON!

Black Knight adds light and quick to its racquet line

**H**ot off the assembly line is the Black Knight C2C HEAT. Weighing in at a stout 153g strung, the C2C HEAT sports a larger—wider—head at its base to provide the heat miser a larger sweet-spot. But fear not, the increased head size does not translate into uneven weight distribution. Instead, this stick is slightly head-light making quick response a snap. If you're looking for a power monger, the C2C HEAT can deliver with a little muscle and swing speed to provide the kick. For those looking to volley with a vengeance and punish their opponents in the front court, the C2C HEAT is raring to go as the stiff frame provides excellent feel for the ball. The HEAT is on...
